WORK EXPERIENCE

Independent Practitioner – Remote

Insurance Data Analyst

Bogotá, Colombia | 06.2024 - 12.2025:

- Performed data munging, integrity and quality checks on large-scale insurance datasets, ensuring accuracy, consistency and compliance with actuarial, risk and operations business rules.
- Conducted Exploratory Data Analysis (EDA) to identify trends, anomalies, customer behaviors, and risk-related patterns, presenting results using clear data-storytelling techniques.

Independent Practitioner – Remote

Integrations Engineer

Bogotá, Colombia | 01.2023 - 05.2024:

- Developed and maintained automated data pipelines using Python, SQL, Snowflake and AWS services, scheduling recurring workflows via Cron jobs to generate and distribute reports.
- Collaborated with cross-functional stakeholders through Jira and Monday.com to gather requirements, prioritize task, and refactor Python ETL processes delivering data solutions.

ENEL CODENSA – Hybrid

Senior Professional in Distribution

Bogotá, Colombia | 07.2022 - 12.2022:

- Developed Python-based risk models for asset optimization, including failure prediction, health index scoring, and remaining useful life (RUL) estimation.
- Executed pipeline ingestion and data wrangling from multiple operational systems in order to report Objectives and Key Results (OKR) dashboards.

EPM AFINIA – On-site

Operational Management COCICO (Commercial Cycle)

Cartagena, Colombia | 06.2019 - 06.2022:

- Designed, implemented and monitored BI frameworks to optimize operational and commercial performance, including EDAs
- Extracted and analyzed large customer and operational datasets for reporting integrated by Python, SQL and BI tools.

Customer Technical Assistance Analyst

Barranquilla, Colombia | 08.2018 - 05.2019:

- Drove budget planning and variance analysis using historical data and quantitative methods to benchmark efficiency and costs.
- Managed databases of supplier contracts, agreements, and external service providers to track performance metrics, quality indicators and compliance criteria.

Head of Default Management

Cartagena, Colombia | 04.2015 - 07.2018:

- Performed portfolio data analysis to deliver critical compliance, recovery, and financial reports.
- Provided statistical business insights to track default plans and revenue control, strengthening decision-making and data governance.
